See related link: <https://www.epa.gov/enforcement/timet-settlement>

Looks like they produce titanium sponge and not TiO2

Subject: TSCA Meeting Today

A reminder that we have our SRRTTF TSCA Workgroup conference call meeting this morning at 10:00:
Ex. 6 Personal Privacy (PP)

I apologize for the delay in getting you this information, but attached are the notes from our prior meeting held on November 7. The notes are primarily focused on Task #3 (Letter from EPA R10 Chris Hladick, attached) and Task #7 (Workshop, Concepts document attached).

For this morning's meeting, I want to keep our momentum and focus on the two Tasks above in preparation for our upcoming SRRTTF meeting where we will propose various actions. Lisa has to drop off at 10:30, so we will discuss the Task #7 Workshop Concepts document first, and then move to the EPA Letter second. We also have some updates from recent conversations with industry folks that we will discuss at the end, time permitting.

Thanks and chat with you all soon.

Doug
